

PAM'S STORY

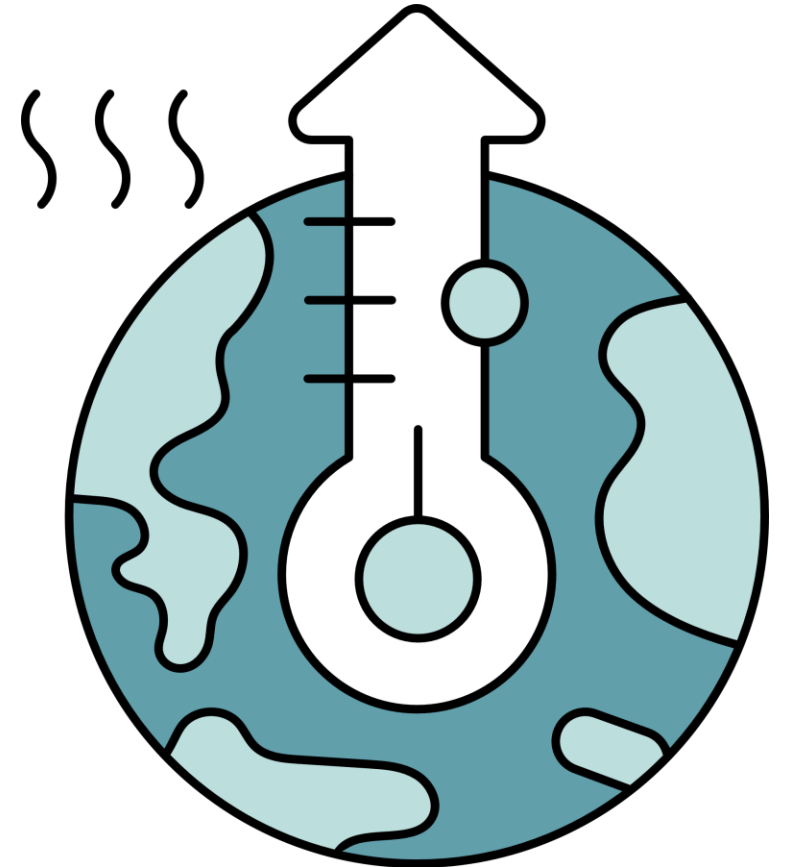

PREPARING FOR POSSIBLE FUTURES

**YORKSHIRE
& HUMBER
CLIMATE
COMMISSION**

Agenda

- Introductions
- Context
- Pam's Story 2048: how it will be
- Version 1 discussion
- Pam's Story 2048: how it could be
- Version 2 discussion
- Identifying actions

Context

- The exercise is about resilience to climate change impacts
- The year is 2048
- The stories are based on mid-level climate predictions
- The weather is the same in both versions

Actively listen to Pam telling her story

Use your handout to make notes

Pause for a minute of silent reflection after the recording,
and note down anything that stood out to you

Pam's Story 2048

How it will be

Version 1 discussion

What struck you most?

What problems did Pam describe?

Who could this be really bad for?

What other risks can you see for Pam's community?

Which parts would you describe as an emergency?

Pam's Story 2048

How it could be

Version 2 discussion

What struck you this time?

What problems had been addressed?

What measures might have achieved this?

How could this level of social cohesion be achieved?

How achievable is this outcome?

Identifying actions

Drawing on the discussions that followed each recording

1

Summarise the common threads that have emerged through the discussions of each version of Pam's Story and how these relate to your own area of work, community or region.

2

Summarise the interventions or recommendations that will help you deliver concrete action towards positive change, leading to an outcome aligned with version 2 of Pam's Story.

THANK YOU

FOR LISTENING TO PAM'S STORY

Pam's Story was developed by the Yorkshire and Humber Climate Commission and Vesper Hill. We would be grateful if you would take a moment to share your feedback with us to help shape future tools that can facilitate positive action for climate and nature in the region.
